EXPERIENCE

Self Employed, Remote, United States — Freelance Frontend Developer

Fiverr

August 2021 - PRESENT

As a dedicated freelance developer, I specialize in nurturing enduring client relationships.

- Delivered 5 Professional websites using HTML5, CSS3 (SCSS, BEM), JavaScript, and React best practices.
- Improved websites performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform, and hosting support, enabling their website to be used by any browser or device in the world.

B2B

August 2021 - PRESENT

Duties and Responsibilities:

- Craft functional and captivating web and mobile applications centered around user experience.
- Provide ongoing maintenance and implement enhancements to ensure optimal performance.
- Swiftly produce top-quality mockups and prototypes even under tight deadlines.
- Collaborate effectively with developers, contributing to coding and troubleshooting efforts.
- Create cross-browser and cross-platform consistent cascading style sheets (CSS).
- Uphold graphic standards and maintain brand integrity across the product's interface.
- Remain current with emerging technologies, staying at the forefront of industry trends.
- Champion best practices in usability to enhance user satisfaction.

CERTIFICATIONS

IT Automation with Python — Google

Verify this certificate at:

coursera.org/verify/professional-cert/859A683XB8AZ

August 2021

In this course I learned how to write code to solve problems and automate solutions. The course goes in depth in learning to program with python and how to use python to automate common system administration tasks. I also learned to use Git and GitHub, troubleshooting and debugging complex problems and applying automation at scale by using configuration management and the Cloud.
